

Trushty – Sr. Angular Developer

Experience: 6.5+ Years

Education: MCA

Synopsis

- Over 6.5 years of IT industry experience as a Senior Angular Developer, specialising in developing and maintaining complex web applications.
 - Proficient in the latest Angular versions (12,13,14,15,16), JavaScript, TypeScript, and RxJS, leveraging these technologies to build dynamic and responsive user interfaces.
 - Extensive experience with Ionic for developing cross-platform mobile applications, ensuring seamless performance across different devices.
 - Strong skills in HTML, CSS, and Bootstrap, creating responsive and visually appealing web designs.
 - Expertise in version control systems, including GIT, BitBucket, GitLab, and GitHub, ensuring effective source code management and collaboration.
 - Experienced with Jira, Azure DevOps, and Jenkins for project management, continuous integration, and deployment.
 - Proficient in GraphQL and SQL, enabling efficient data querying and database management.
 - Skilled in developing and integrating RESTful web services (JSON), enhancing application interoperability and performance.
 - Familiar with testing frameworks such as Karma and Jasmine, ensuring robust and reliable code through comprehensive testing.
 - Experienced in working with Windows, Android, and Linux operating systems, providing versatile development and deployment environments.
 - Knowledgeable in Waterfall and Agile methodologies, facilitating effective project management and timely delivery of software solutions.
