**Vimrash - Sr. MERN Stack Developer**

**Experience:** 3+ Years

**Education:** BE

## Synopsis

- 3+ years of strong experience in the IT industry as a Senior MERN Stack Developer specialising in JavaScript (ES6+), ReactJS, Node.js, and Mongodb.
- Hands-on experience in building scalable and responsive web applications using ReactJS, Redux, TypeScript, Bootstrap, Ant Design, and Material UI.
- Strong command of HTML5, CSS3, and SCSS to develop pixel-perfect and cross-browser compatible UI components.
- Proficient in developing RESTful APIS using Node.js and Express.js, and integrating them with frontend applications.
- Worked extensively on Mongodb, PostgreSQL, and Nosql databases for building robust backend services and managing data workflows.
- Experience working on AWS, using services for deployment and scalability; well-versed with Git for version control and Webpack for module bundling.
- Successfully delivered and maintained Progress Alliance – a full-stack MERN application; handled end-to-end frontend and backend development as per client requirements.
- Contributed as a React Developer to OOREDOO Tunisia, a multinational telecom company, enhancing the frontend and supporting backend with Node.js for key features.
- Played a core role in developing DoSelect (for Naukri.com), a skill assessment platform, from scratch using ReactJS with dynamic components and seamless UX.
- Developed the backend for Zefayar, an eCommerce platform builder, using Node.js and Mongodb to power scalable digital storefronts.
- Capable of delivering high-performance applications with strong attention to clean architecture, security best practices, and performance optimisation.
- Excellent team player with proven ability to adapt to new technologies, quickly understand client requirements, and deliver within deadlines.
