

Rutviiksinh - Quality Assurance

Experience: 2.5+ Years

Education: MSc

Synopsis

- Quality Assurance Engineer with 2.5+ years of experience in manual and automation testing, ensuring high-quality software solutions through comprehensive testing methodologies.
 - Skilled in designing and executing detailed functional and non-functional test cases, ensuring complete traceability with project requirements.
 - Expertise in Manual Testing with hands-on experience in Regression Testing, Smoke Testing, Sanity Testing, Ad-hoc Testing, Accessibility Testing, and AI-based Testing.
 - Proficient in bug identification, validation, reporting, and tracking using Jira, ensuring seamless defect management and resolution.
 - Experience in Automation Testing using Cypress and Selenium, contributing to efficient and scalable test automation strategies.
 - Strong knowledge of API testing with SoapUI, enabling robust validation of web services and integrations.
 - Hands-on experience in MySQL for database validation, query execution, and data integrity testing.
 - Knowledgeable in Power BI for data analysis and reporting, enabling actionable insights from test results.
 - Exposure to AI and Machine Learning concepts, leveraging automation and predictive analytics for intelligent testing approaches.
 - Familiarity with Citrix environments, ensuring compatibility and performance testing for virtualized applications.
 - Proven ability to collaborate with cross-functional teams, developers, and stakeholders to ensure software quality and project success.
 - Strong mentor and team player, having trained new joiners to improve their product knowledge and testing efficiency.
-

Technical Skills

Programming Languages	Python
Testing Tools	SoapUI, Cypress, Selenium
Bug Tracking Tools	Jira

Database	MySQL
BI & Data Analysis	Power BI
AI & Machine Learning	AI, ML
Virtualization	Citrix

Recent Projects

1. **Project Name:** Meta Product Quality (PQ)
